The MindSnack Corner

"10 Tricks to Help You Actually KEEP Your New Year's Resolutions Part III"

In today's 'MindSnack' we continue with the third, and final, segment to help you keep your New Year's resolution. Before we go into it, though, understand that it doesn't have to be a new year in order for you to strive to be a NEW YOU!

7. Get an app.

There is an app that can help every resolution. 'Noon' is an app that, not only tracks your diet, exercise and task completion, but it also coaches you through the process towards weight loss. There is another app called 'Mint' that helps with your personal finances by tracking spending by category, and keeping you on a budget.

8. Celebrate little victories.

You deserve it! Just make sure the rewards you choose don't work against your goal (i.e. heading a shopping spree because you managed to save \$100 this month). Think of a way you can treat yourself like taking a long, relaxing bubble bath every week you reach your savings goal. It's a positive reward that will actually help make a healthier, happier you.

9. Reassess your resolutions.

If something isn't working, then it's ok to go back and modify your resolution. Resolutions are all about becoming a better version of yourself, not a perfect version. If you're not able to save \$100/week, oh well! Knock it down to \$75, and keep trying. That's still \$3,900 saved by the end of the year, and that's something to be proud of.

10. Don't give up so easily.

Too often, people throw in the towel on resolutions because of one slip up. So what. You had a moment of weakness, and ate a box of donuts. It happens! If weight loss were that easy, it wouldn't be the #1 resolution, every year. It's easy to use small slip ups as a reason to quit on ourselves. Forgive yourself, move on, and keep pushing!
